ATTACHMENTS

Please submit the application with the following attachments. Have each attachment clearly marked and in the order listed below.

- **ATTACHMENT A – MAPS**

Boundary Map – The boundary map must list the total acreage located within the park boundary. Please be aware, LWCF requires that the **entire** park boundary become protected in **perpetuity**, not just the portions of the park being developed with the LWCF grant.

Location Map – Location Map provides a snapshot of the project's location. It is not the same as a boundary map. Location Maps include street names, nearby cities, landmarks, etc.

- **ATTACHMENT B – SITE PLAN**

- **ATTACHMENT C – DETAILED BUDGET**

Provide a detailed breakdown of how the applicant determined the total project cost. Include copies of quotes, invoices, written statements, appraisals, etc., as supplemental documentation. Detailed Budget needs to include a breakdown of all force account and in-kind labor. Provide details of who is providing the labor (government employees or a local company), the value of that labor, and what work will be completed.

- **ATTACHMENT D – PROOF OF PROPERTY OWNERSHIP**

Own – Attach a copy of the deed for all properties/parcels located in the park's boundary.

Lease – Attach a copy of the lease. In order to be eligible for the LWCF, the lease must have a **minimum of 25 years** remaining.

- **ATTACHMENT E – ENVIRONMENTAL ASSESSMENT (EA)** (A template has been provided.)

- **ATTACHMENT F – SHPO 106 PROCESS**

Applicant must submit the proposed project to the State Historic Preservation Offices for a Section 106 review. Click [here](#) for more information on the process and policies. Please note that a “preliminary site check” does not satisfy the SHPO requirement.

- **ATTACHMENT G – KENTUCKY STATE CLEARINGHOUSE REVIEW**

Applicant must complete the Kentucky State Clearinghouse Review. Click [here](#) to submit your project for review. Please note, Clearinghouse comments remain valid for one year.

- **ATTACHMENT H – RESOLUTION** (A template has been provided.)

- **ATTACHMENT I – ASSURANCES AND CERTIFICATIONS**

The following forms have been provided for signature: Civil Rights Assurances, Certification Regarding Debarment, and SF-424D Construction Assurances.

- **ATTACHMENT J – OVERHEAD UTILITY LINES ACKNOWLEDGEMENT**

- **ATTACHMENT K – PUBLIC MEETING & CONCURRENCES**

Include a copy of the public meeting's advertisements, sign-in sheet, and minutes. Also, attach all written comments and completed concurrences forms (included). Public meetings must be properly advertised (at least a week's notice and posted in largely viewed mediums) to ensure public participation.

OVERHEAD UTILITY LINES

The requirement for delineation of overhead utility lines on the site plan is the result of a National Park Service policy. The Service states in the Grants Manual that “overhead utility lines constitute a major detraction from the natural quality of many outdoor recreation areas and must be eliminated where possible. The sponsor will, therefore, be expected to: 1) take all reasonable steps to insure the burial, screening, or relocation of existing overhead lines at development or acquisition projects where such lines visibly intrude upon the site’s character, and 2) insure that all new electric wires under 15KV, and telephone wires be placed underground. In no case shall mass recreation use areas (swimming, picnicking, etc.) be located under electric wires.”

The state, in complying with this policy, must establish where all lines within the park are located and clarify the status of these lines. Not all lines must come down as a result of this policy, but any lines that remain must be justified. **In submission of the pre-application, the applicant must show overhead utility lines that are existing within the park. Secondly, the application must indicate any utility lines that will be buried, screened, or relocated.** Grant monies may be used for this purpose and should be included in the cost estimate. Finally, the sponsor must justify any overhead lines that will remain. If there is some doubt as to the disposition of lines, staff will make a determination through discussions with the National Park Service and/or information found through an on site inspection.

I, the undersigned, with full authority to act on behalf of the applicant, have read and understood this attachment.

Public Meeting Guidelines & Forms

PUBLIC MEETING GUIDELINES

An essential component of establishing the local need for a specific project is obtaining input from the local public. To be effective, citizen input must be: Representative (include diverse elements of the population), significant (the input should actually have an impact on what is proposed), and widespread (include a fairly large number of citizens).

It is best if citizens are involved in actually setting priorities for certain projects for a community rather than securing public reaction to a completed plan. However, if open meetings have not been held to set recreational priorities, they must at least be held to obtain citizen evaluation of the proposed acquisition or development.

The following guidelines have been formulated to provide direction for holding open meetings:

- A. A public meeting should be advertised at least one week in advance in the local newspaper and/or posted in public places to reach the citizens in the service area. An example of an advertisement is attached for your use. Advertisements should not appear in the legal section of the newspaper.
- B. Minutes should be kept of public meetings. These minutes should be submitted with the pre-application form to provide documentation of these meetings.
- C. A record of the citizens who attended meetings should be kept. This record should include the name, address or organization of each person who was present.
- D. A concurrence form should be handed out to citizens at the beginning of a public meeting. Citizens should be encouraged to return these at the end of the meeting. A sample form is attached.
