28 Code of Federal Regulations Part 35.130, Title II of the Americans with Disabilities Act prohibits discrimination on the basis of disability by public entities. This rule, therefore, adopts the general prohibitions of discrimination established under section 504, as well as the requirements for making programs accessible to individuals with disabilities and for providing equally effective communications. It also sets forth standards for what constitutes discrimination on the basis of mental or physical disability, provides a definition of disability and qualified individual with a disability, and establishes a complaint mechanism for resolving allegations of discrimination.

PUBLIC MEETING GUIDELINES

An essential component of establishing the local need for a specific project is obtaining input from the local public. To be effective, citizen input must be: Representative (include diverse elements of the population), significant (the input should actually have an impact on what is proposed), and widespread (include a fairly large number of citizens).

It is best if citizens are involved in actually setting priorities for certain projects for a community rather than securing public reaction to a completed plan. However, if open meetings have not been held to set recreational priorities, they must at least be held to obtain citizen evaluation of the proposed acquisition or development.

The following guidelines have been formulated to provide direction for holding open meetings:

- A. A public meeting should be advertised at least one week in advance in the local newspaper and/or posted in public places to reach the citizens in the service area. An example of an advertisement is attached for your use. Advertisements should not appear in the legal section of the newspaper.
- B. Minutes should be kept of public meetings. These minutes should be submitted with the pre-application form to provide documentation of these meetings.
- C. A record of the citizens who attended meetings should be kept. This record should include the name, address or organization of each person who was present.
- D. A concurrence form should be handed out to citizens at the beginning of a public meeting. Citizens should be encouraged to return these at the end of the meeting. A sample form is attached.

Recreational Trails Program Information/Guidelines

The Recreational Trails Program (RTP), authorized by the Transportation Equity Act for the 21st Century (TEA-21), is a federal-aid assistance program to help states develop and maintain trails for both motorized and non-motorized recreational trail use. The program provides for all kinds of recreational trail uses such as walking, jogging, hiking, bicycling, mountain biking, in-line skating, equestrian, off-road motorcycling, all-terrain vehicle (ATV), four-wheel driving, and/or using other off-road motorized vehicles.

States are eligible to receive RTP funding by designating an agency and official to be responsible for the program within the state and create a Trails Advisory Board on which both motorized and non-motorized recreational trail users are represented. The Governor of Kentucky designated the Department for Local Government (DLG) as the state agency responsible for administering the RTP and appointed DLG's Commissioner as the principal official to coordinate with the Federal Highway Administration (FHWA). In turn, the Commissioner assigned the program's administrative duties to DLG's Office of Federal Grants.

Each state may develop its own procedures to solicit and select projects for funding in response to recreational trail needs within the state. For the state of Kentucky, DLG staff will collect, review and score the applications. The Kentucky Trail Advisory Board (KYTAB) will hold a meeting to review the submitted applications and make funding recommendations. The Governor, with assistance from the Commissioner of DLG, will make project selections based on these recommendations. All applicants will be notified of project approval or disapproval.

Once selected at the state level, RTP applications must be submitted to the FHWA for final federal approval. After receipt of FHWA approval, DLG will send the grant recipient a memorandum of agreement that must be signed by an appropriate official of the agency and returned to DLG. All approved applicants must read and be willing to comply with the policies and procedures set forth in the Kentucky Transportation Cabinet's [LPA Guide](#).*

***Program requirements for the Recreational Trail grants are subject to change at any time. Projects submitted for consideration will be subject to any new requirements in the LPA Guide and/or LPA Manual, including specifically the requirement of a perpetual easement in favor of the Department for Local Government.**

The Recreational Trails Program mandates DLG shall allocate the annual apportionment as follows:

- 7 percent for DLG administrative support cost

The balance of the annual apportionment shall be allocated as follows:

- 30 percent for non-motorized trail purposes;
- 30 percent for motorized trail purposes;
- 35 percent for both non-motorized and motorized trail use with preference given to the greatest number of compatible uses and recreational corridor sharing;
- 5 percent for education/safety programs. The focus of the proposed project must be for public safety and public education/awareness.
