

Form 11-1 CDBG-DR
Green and Resilient Building Standards Selection

CDBG-DR funding allocated to the Commonwealth of Kentucky must follow the Green and Resilient Building Standards when carrying out activities to construct, reconstruct, or rehabilitate residential structures with CDBG-DR funds as part of activities eligible under 42 U.S.C. 5305(a). This applies to all new construction and reconstruction (i.e., demolishing a housing unit and rebuilding it on the same lot in substantially the same manner) of residential buildings and all rehabilitation activities of substantially damaged residential buildings, including changes to structural elements such as flooring systems, columns, or load-bearing interior or exterior walls.

Program policy and guidelines should be consulted prior to selecting from the categories below. While the Federal Register notice details the ability for the recipient to make a selection from each of the two categories, Program policy and guidelines may dictate which options are explicitly required. Additionally, each project file must identify which of these Green and Resilient Building Standards will be used, however it is not required to use the same standards for each project or building.

Note: DLG approval is required if deviating from a requirement specified in Program policy and guidelines or when selecting the 'other equivalent' option(s).

Industry-Recognized Certification (Select One):

- LEED (New Construction, Homes, Midrise, Existing Buildings Operations and Maintenance, or Neighborhood Development)
 - Enterprise Green Communities
 - ICC-700 National Green Building Standard Green+ Resilience
 - Living Building Challenge
 - Any other equivalent comprehensive green building program acceptable to HUD (Describe the equivalent below)
-

Energy Efficiency Standard (Select One):

- ENERGY STAR (Certified Homes or Multifamily High-Rise)
 - DOE Zero Energy Ready Home
 - EarthCraft House, EarthCraft Multifamily
 - Passive House Institute Passive Building or EnerPHit certification from the Passive House Institute US (PHIUS)
 - International Passive House Association
 - Greenpoint Rated New Home, Greenpoint Rated Existing Home (WholeHouse or Whole Building label)
 - Earth Advantage New Homes
 - any other equivalent energy efficiency standard acceptable to HUD (Describe the equivalent below)
