**Your Partner in Kentucky's Dynamic Future**

**Commissioner Ervin Dimeny & Deputy Commissioner Michael Donta, Combs/Chandler Room**

One of Governor Bevin's top priorities for Kentucky is growing the economy through creation of new jobs, expanding viable opportunities for Registered Apprenticeships,

and ensuring safe and desirable working conditions for the Commonwealth's workforce. The Kentucky Labor Cabinet's Department of Workplace Standards began the process of creating a strategic agenda to meet and exceed the Governor's vision and goals. Working within the Cabinet's divisions, each team developed a three-year business plan with specific action items and measurable deliverables to benefit both state and local governments, as well as to inform policy at the national level.

#### **Fraud Red Flags**

#### **State Auditor Mike Harmon & Tammy Patrick, Clements Room**

When we refer to red flags, we are talking about situations or conditions that, over the years, have consistently been shown to be contributing factors to fraud, waste, and abuse. By themselves, they don’t necessarily mean anything, but the more red flags present, the higher the risk that fraud, waste, or abuse are occurring within your local government. There are two general categories of offenders – internal and external. Many local governments have external customers, such as contractors, grantees, or others, who can potentially misrepresent facts to obtain money to which they are not entitled. Internal offenders are people who use their positions within your local government for personal enrichment through deliberate misuse or misapplication

of your local government's resources or assets. In this session, the APA will discuss red flags that will help you prevent and identify fraud in your local government.

## **2:00 – 2:45 Workshops**

### **The How and Why of Qualifications Based Selection**

**Russ Romine & Janet Pike, Carroll/Ford Room**

Federal and state funded public works projects require the use of Qualifications Based Selection (QBS) when procuring professional architecture and engineering services. QBS brings both creativity and a long-term cost saving focus that provides the best value for your project and the public. The Executive Directors of the American Institute of Architects Kentucky and the Kentucky Society of Professional Engineers, along with a panel of QBS users, will explain the benefits of this procurement method and provide an overview of the QBS process. The panel has extensive experience utilizing QBS and will share the real world value and start-up efforts needed to assure that the QBS requirement has been met and that funding for your projects is secure. The panel represents agencies, which use and administer this process and contractors who see the benefits.
