### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Bullitt County Public Library Shepherdsville, Kentucky

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, and each major fund of the Bullitt County Public Library, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on the general purpose financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund of the Bullitt County Public Library as of June 30, 2018, and the respective changes in financial position thereof, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

To the Board of Directors Bullitt County Public Library Page 2

### Change in Accounting Principle

As discussed in Note G to the financial statements, in 2018 the Library adopted new accounting guidance, GASBS No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Our Opinion is not modified with respect to this matter.

### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the schedules for pension and other postemployment benefits plans, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Reporting Required by Government Audit Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 23, 2018, on our consideration of the Bullitt County Public Library's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control of financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Bullitt County Public Library's internal control over financial reporting and compliance.

### Bullitt County Public Library Management's Discussion and Analysis Fiscal Year 2017-2018

The Bullitt County Public Library District is a special purpose governmental entity that operates under KRS Chapter 173. The Library Board sets and approves the budget based on the annual fiscal year starting July 1<sup>st</sup> and ending June 30<sup>th</sup>. The Governing Board is a five member board with fixed terms as specified by law. The Library Board of Trustees has regular meetings that take place once a month. Over the course of the year; the Board monitors the budget and policies of the Library. In addition to having annual audits performed, the Library system completes an Annual Report that contains financial and other statistical information. Other information about the Library system is available at the Library's web site (<a href="https://www.bcplib.org">www.bcplib.org</a>). Questions should be directed to the administrative offices located at the Ridgway Memorial Library in Shepherdsville.

The 2010 census shows the county population at **74,319**. The most current population estimate is for 2017 and it estimates the population at 80,246. Bullitt County is still the 10<sup>th</sup> largest county by population in the state of Kentucky. The county population grew 21.4% in the last decade. The tax base has been stable thanks to the growth in county population and in available jobs, primarily in the order-fulfillment industry. The demands on library services are ever increasing thanks to the continuing growth in county population and the changing needs of the public. During tight economic times library usage tends to increase because most of the services we provide are free to the public. Instead of purchasing a book people tend to borrow or download materials from the library. Instead of paying for internet access at home, they use it for free at the library. The Library

Bullitt County Library District tax rate is **6.9** cents per \$100 assessed value for real property and 7 cents per \$100 assessed value for personal property and **2.12** per \$100 for motor vehicle assessed value. This reflects the same rates for real property and motor vehicle rates from the previous year and a 0.1 cent increase in personal property rate from the previous year. During the fiscal year 2017 – 2018, Bullitt County Public Libraries received **\$7,138,300** in total revenues, an increase from \$5,415,752 in 2016 – 2017 total revenues. Of that amount, **\$6,709,775** was from local property taxes. **93**% of the Library's total revenue comes from tax revenue. As of June 30, 2018, the Library District had a total fund balance of **\$16,700,507**, and a total liabilities and net asset of **\$32,243,278**. The Library's long term liabilities were **\$4,710,308**. The long term liabilities include a construction loan funded by a grant from the State of Kentucky that pays roughly \$40,000 annually, funds to cover compensated absences, and County Employee Retirement System pensions.

The Library receives its tax income in uneven amounts. About half of the tax income is received when the real estate property taxes are collected and distributed in the final quarter of the year. The rest of the income comes in unequal and usually diminishing amounts throughout the remainder of the year. The Library needs to maintain enough cash on hand to meet expenses not only to the end of the current fiscal year, but also until the next property tax collections are made the following November or December.

The Bullitt County Public Library is working on multiple construction projects. Last year, the construction of a new building for our Mt. Washington location was completed. Currently, a totally new branch in the west end of the county that will provide coverage to an area that has no local branch is under construction and will be completed in late 2019. Two locations, the Hillview and Lebanon Junction branches, are undergoing parking lot expansion to add spaces to accommodate additional patrons that are using the Library and attending events. Additionally, a new main branch building and future renovations for all branches are outlined in our Master Facilities Plan. We plan to improve furnishings and spaces in our existing buildings, cater our individual building offerings to local community needs, add and adopt more meaningful technology to improve service, and increase our outreach offerings outside of our buildings.

There are a few events outside of our county that may have a future impact on our Library operations. The upcoming Kentucky general assembly is likely to take up legislation that may affect public libraries governing authority in the selection of Board members, add another layer of complexity in setting the tax rates each year, increase an already sizeable retirement contribution amount due from the Library for all employees working 100 hours or more per month, along with other matters. Changes in the Louisville Metro economy, market volatility of all sorts, the slow rise of wages, and global trade concerns, may have economic impact within Bullitt County. However, continued strong home building permit applications, new businesses moving in, and positive news about new Interstate 65 interchanges, indicate positive growth for the area.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2018

### NOTE A - DESCRIPTION OF ORGANIZATION

The Bullitt County Public Library was established in the early 1950's under the provisions of the Commonwealth of Kentucky to provide library and related services to the citizens of Bullitt County, Kentucky.

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Library have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Library's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements, including Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis, and Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions, which mandate the new reporting model implemented by the Library. The more significant of the Library's accounting policies are described below.

- (1) Reporting Entity The Library is the basic level of government that has oversight responsibility and control over all activities related to the public library in Bullitt County, Kentucky. The Library receives funding from local and state government sources and must comply with the requirements of these funding source entities. However, the Library is not included in any other governmental "reporting entity" as defined by the GASB pronouncement, since Library board members have decision-making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.
- (2) Government-Wide and Fund Financial Statements The financial statement presentation for the Library includes separate columns reporting a statement of net assets and a statement of activities. These statements present a government-wide presentation of all activities of the Library.
- (3) Measurement Focus, Basis of Accounting, and Financial Statement Presentation The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Both long-term and current assets and liabilities are included in the statement of net assets.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. Only current assets and current liabilities generally are included on the balance sheet. Property tax revenues and revenues from the Commonwealth of Kentucky are recognized when susceptible to accrual. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received.

### NOTES TO FINANCIAL STATEMENTS

### June 30, 2018

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(4) Fund Accounting – The Library uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The Library uses governmental funds.

### Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The Library reports the following major governmental funds:

General Fund – The General Fund is used to account for all financial resources of the Library except those required to be accounted for in another fund. The general fund balance is available to the Library for any purpose provided it is expended or transferred according to the laws of the Kentucky and the bylaws of the Library.

### Fund Balances

GASB Statement 54 provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the Library's fund balances more transparent. In the fund financial statements, governmental fund balances can be presented in five possible categories:

Non-spendable – resources which cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact.

Restricted – resources with constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors or governmental laws or regulations or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> – resources which are subject to limitations the Library imposed on itself at its highest level of decision making and that remain binding unless removed in the same manner.

<u>Assigned</u> – resources neither restricted nor committed for which a government has a stated intended use as established by the governing body or by an official to which the governing body delegates authority.

<u>Unassigned</u> – amounts that are available for any purpose. The General Fund is the only fund that reports a positive unassigned fund balance amount.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2018

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (5) Budget The Library adopts an annual budget for the general fund. The budget is prepared on the cash basis, a comprehensive basis of accounting other than GAAP. The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized and recorded when received in cash and when paid, respectively. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting on the governmental fund statements and on the full accrual basis on the government-wide statements. A reconciliation of the cash basis actual amounts in the budgetary comparison to the GAAP basis actual amounts in the fund and government-wide statements is shown at the bottom of the budgetary comparison schedule. The amended budget amounts presented in the accompanying financial statements have been adjusted for authorized amendments of the annual budget adopted by the Library Board of Trustees. All appropriations lapse at year end.
- (6) Cash and Cash Equivalents For the purpose of these financial statements, cash equivalents include time deposits, certificate of deposit, and all highly liquid debt instruments with original maturities of three months or less.
- (7) Net Position Net position presents the difference between assets and liabilities in the statement of net position. Net Position invested in capital assets is reduced by the outstanding balances of any borrowing, if any, used for the acquisition, construction or improvement of those assets. Net position is reported as restricted if and when there are legal limitations imposed on their use by Library legislation or external restrictions by creditors, grantors, laws or regulations of other governments.
- (8) Capital Assets Land, buildings, collection, and other capital assets with useful lives of more than one year resulting from expenditures in the governmental funds are recorded at cost (or estimated historical cost) net of accumulated depreciation in the government-wide statement of net assets but are reported as expenditures in governmental fund financial statements. The Library maintains a capitalization threshold of \$500. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. The Library does not possess any infrastructure. The Library depreciates capital assets using the straight-line method of depreciation over the estimated useful life of the asset.
- (9) Allowance for Uncollectible Accounts At June 30, 2018, management deems all accounts receivable collectible. Therefore, no allowance for uncollectible accounts is included in the financial statements.
- (10)Long-term Obligations In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.
- (11)Deferred Outflows of Resources The Library reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its government-wide statement of position. Deferred outflows of resources reported in this year's financial statements relate to the Library's pension plan and include (1) contributions made to the Library's pension plan between the measurement date of the net pension liability and the end of the Library's fiscal year, (2) differences between the expected and actual experience, (3) changes in assumptions, (4) changes in the

### NOTES TO FINANCIAL STATEMENTS

### June 30, 2018

proportionate share of the Library's contributions to the pension fund, and (5) difference between projected and actual earnings on plan investments. The deferred amount related to the differences between expected and actual experience, changes of assumptions in the pension fund, and changes in the proportionate share of the Library's contributions to the pension fund will be recognized over a closed period equal to the average of the expected remaining service lives of all employees participating in the plan. The deferred amount related to the difference between projected and actual earnings on plan investments will be recognized over a closed five-year period beginning in the current reporting period. Deferred outflows for pension contributions will be recognized in the subsequent year. No deferred outflows of resources affect the governmental funds financial statements in the current year.

- (12)**Deferred Inflows of Resources** The Library's statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period(s). There were no deferred inflows resources related to the pension plan recognized in the current year.
- (13)Pensions For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System (CERS) and additions to/deductions from CERS's fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.
- (14)Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.
- (15)Use of Restricted Resources When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the Library's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the Library's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications committed and then assigned fund balances before unassigned fund balances.

### **NOTE C - CASH AND INVESTMENTS**

At June 30, 2018, the carrying amount of the Library's deposits (cash and cash equivalents) was \$16,780,543. Of the bank balance, \$254,390 is covered by federal depository insurance (FDIC) and the remaining is secured by pledged securities held by the pledging financial institution's agent in the Library's name as collateral for bank balances in excess of the FDIC insured amount. Cash deposited in bank accounts that is restricted for specific expenditures as specified by grant or other funding agreements is reported as restricted cash. The Library's deposits consisted of demand deposits and certificates of deposit.

Kentucky Revised Statutes authorize districts to invest in obligations of the United States and its agencies, obligations of the Commonwealth of Kentucky and its agencies, shares in savings and loan associations insured by federal agencies, deposits in national or state charter banks insured by federal agencies, repurchase agreements, and larger amounts in such institutions providing such banks pledge as security obligations of the United States government or its agencies.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2018

### NOTE D - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2018 was as follows:

	Beginning <u>Balance</u>	Additions	<u>Disposals</u>	Ending Balance
Land	\$ 2,907,294	\$ 80,429	\$ -	\$ 2,987,723
Land Improvements	37,176	-	-	37,176
Buildings	8,235,006	3,813,112	(568,567)	11,479,551
Construction in Progress	3,656,924	179,388	(3,813,112)	23,200
Vehicles	22,558	-	-	22,558
Collection	3,162,434	418,749	(309,480)	3,271,703
Equipment and Furniture	1,440,346	95,144	-	1,535,490
Total Cost	19,461,738	4,586,822	(4,691,159)	19,357,401
Less:				
Accumulated Depreciation	( <u>5,427,155)</u>	( <u>846,084</u> )	<u>656,308</u>	( <u>5,616,931)</u>
Net Book Value	\$ <u>14,034,583</u>	\$ <u>3,740,738_s</u>	\$ <u>(4,034,851)</u> \$	\$ <u>13,740,470</u>

### NOTE E – LIABILITY FOR COMPENSATED ABSENCES

Employees are allowed to accrue sick days. However, sick leave does not vest under the Library's policies and accordingly, employees can only utilize sick leave when sick. Since the employees' accumulating rights to receive compensation for future absences are contingent upon the absences being caused by future illnesses and such amounts cannot be reasonably estimated, a liability for unused sick leave is not recorded in the financial statements.

Employees are also allowed to accrue vacations hours, which are vested. Accordingly, the employee can be paid for unused vacation days upon termination.

A liability for accumulated vacation hours is accrued when incurred in the government-wide financial statements. The amount accrued in the government-wide financial statements is \$67,825 at June 30, 2018.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2018

### NOTE F - EMPLOYEES' RETIREMENT PLAN

### General Information about the Pension Plan

Plan description. Employees of the District are provided with pensions through the County Employees Retirement System (CERS)—a cost-sharing multiple-employer defined benefit pension plan. Per Kentucky Revised Statute Section 61.645, the Board of Trustees (the Board) of Kentucky Retirement Systems (KRS) administers the CERS. KRS issues a publicly available financial report that can be obtained at https://kyret.ky.gov

Benefits provided. CERS provides retirement, disability, and death benefits. Retirement benefits are calculated based on a formula (final compensation times a benefit factor times years of service) and may be extended to beneficiaries of plan members under certain circumstances. Disability benefits are determined in a similar manner as retirement benefits, but vary based upon hire date, age and years of service. Death benefits vary based upon whether the employee was retired or working at the date of death and whether or not it was a duty-related death.

For retirement purposes, non-hazardous duty employees are grouped into three tiers, based on their hire date:

Tier I	Participation date	Before September 1, 2008
	Unreduced Retirement	27 years service or 65 years old
	Reduced Retirement	At least 5 years service and 55
		years old, or
		At least 25 years service and any age
Tier 2	Participation date	September 1, 2008 – December 31, 2013
	Unreduced Retirement	At least 5 years service and 65 years old, or Age 57+ and sum of service years plus age equal 87
	Reduced Retirement	At least 10 years service and 60 years old
		•
Tier 3	Participation date	On or after January 1, 2014
	Unreduced Retirement	At least 5 years service and 65 years old, or
		Age 57+ and sum of service years plus age equal 87
	Reduced Retirement	Not available

Employees are vested in the plan after five years of service. Cost of living adjustments are provided at the discretion of the Kentucky General Assembly. No COLA has been granted since July 1, 2011.

Contributions. Kentucky Revised Statute Section 78.545(33) grants the authority to establish and amend the benefit terms to the Board of KRS. Tier 1 employees are required to contribute 5% of their annual creditable compensation. Tier 2 and 3 employees are required to contribute 5% of their annual creditable compensation plus an additional 1% of creditable compensation which is credited to the Insurance Fund. Employers contribute at the rate determined by the Board. The actuarially determined rates set by the Board for the year ended June 30, 2018 was 19.18%, of which 14.48% was for the pension fund and 4.70% was for the insurance fund. Contributions to the pension plan from the District were \$316,499 for the year ended June 30, 2018, of which \$238,942 was for the pension fund and \$77,557 was for the insurance fund.

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2018

### NOTE F - EMPLOYEES' RETIREMENT PLAN (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the District reported a liability of \$3,285,052 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the District's proportion was 0.056123%, which was an increase of 0.003234% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$715,219. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			red Inflows Resources
Differences between expected and actual experience	\$	535	\$	10,953
Changes of assumptions		79,625		-
Net difference between projected and actual earnings on plan investments		34,175		28,838
Changes in proportion and differences between District contributions and proportionate share of contributions		2,079		50,506
District contributions subsequent to the measurement date	\$	30,391 146,805	S	90,297

The \$238,942 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	•
2019	\$ 348,987
2020	280,828
2021	110,201
2022	56,779
2023	 -

\$ 796,795

### BULLITT COUNTY PUBLIC LIBRARY NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2018

### NOTE F - EMPLOYEES' RETIREMENT PLAN (CONTINUED)

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2017 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.30%

Salary increases 3.05%, average, including inflation

Investment rate of return 6.25% net of pension plan investment

expense, including inflation

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (setback I year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2008–June 30, 2013.

Changes of assumptions. Since the prior measurement date, there were no changes in assumptions.

Discount rate. The discount rate used to measure the total pension liability was 6.25 %. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26-year amortization period of the unfunded actuarial accrued liability.

The long-term expected rate of return on plan assets is reviewed as part of the regular experience studies prepared every five years for KRS. The most recent analysis, performed for the period covering fiscal years 2008 through 2013, is outlined in a report dated December 3, 2015. Several factors are considered in evaluating the long-term rate of return assumption including long term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which the best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the following table:

### NOTES TO BASIC FINANCIAL STATEMENTS

the net pension liability	S	4,143,160	\$	3,285,052	S	2,567,250

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued KRS financial report.

### Payables to the pension plan

The District makes legally required contributions to the pension plan on a monthly basis. The monthly payment is due by the 10<sup>th</sup> of the following month. As of June 30, 2018, \$0 was payable to the pension plan for the pension fund and \$0 was for the insurance fund.

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2018

### NOTE G – POSTEMPLOYMENT BENEFITS

### General Information about the Postemployment Benefits Plan (OPEB)

Plan description. Employees of the District are provided with health care benefits through the Kentucky Retirement System Insurance Fund (Insurance Fund)—a cost-sharing multiple-employer health insurance plan. The Insurance Fund is part of CERS. Per Kentucky Revised Statute Section 61.645, the Board of Trustees (the Board) of Kentucky Retirement Systems (KRS) administers the health insurance benefit. KRS issues a publicly available financial report that can be obtained at https://kyret.ky.gov

Benefits provided. The Insurance Fund provides hospital and medical insurance for eligible members receiving benefits from CERS. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. The eligible Medicare retirees receive benefits through a Medicare Advantage Plan. The amount of contributions paid by the Insurance Fund is based on years of service and participation date. For members participating prior to July 1, 2003, members completing 20 or more years of service received 100% contribution. Members completing 15 – 19 years, 10-14 years, and 4-9 years received 75%, 50%, and 25% respectively. Members completing less than 4 years of service receive no insurance benefit. As a result of House Bill 290, medical insurance benefits are calculated differently for members who began participating on, or after, July 1, 2003. Once members reach a minimum vesting period of 10 years, non-hazardous employees whose participation began on, or after, July 1, 2003, earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. This dollar amount is subject to adjustment annually, which is currently 1.5%, based upon Kentucky Revised Statutes. The monthly dollar contribution for 2017 is \$13.18 for CERS Non-hazardous employees. The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgment, the welfare of the Commonwealth of Kentucky so demands.

Contributions. Kentucky Revised Statute Section 78.545(33) grants the authority to establish and amend the benefit terms to the Board of KRS. Tier I employees are not required to contribute to the insurance fund. Tier 2 and 3 employees are required to contribute 1% of their creditable compensation to the insurance fund. Employers contribute at the rate determined by the Board. As stated in Note 5 Employee's Pension Plan, the actuarially determined rates set by the Board for the year ended June 30, 2018 was 19.18%, of which 14.48% was for the pension fund and 4.70% was for the insurance fund. See Note 5 for contributions to the plan from the District during the current fiscal year.

### OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the District reported a liability of \$316,499 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the District's proportion was 0.0056123%.

For the year ended June 30, 2018, the District recognized OPEB expense of \$77,557. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2018

### NOTE G – POSTEMPLOYMENT BENEFITS (CONTINUED)

		d Outflows esources		red Inflows esources
Differences between expected and actual experience	S	-	S	3,134

Net difference between projected and actual earnings on plan investments		•		53,321
Changes in proportion and differences between District contributions and proportionate share of contributions		-		2,619
District contributions subsequent to the measurement date	S	91,346 336,849	\$	59,074

The \$91,346 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

### Year ended June 30:

2019	\$ 32,077
2020	32,077
2021	32,077
2022	32,077
2023	45,407
2024	 12,715
	\$ 186,430

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of June 30, 2017 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30%
Salary increases	3.05%, average,
Investment rate of return	6.25%

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2018

### NOTE G – POSTEMPLOYMENT BENEFITS (CONTINUED)

Healthcare trend rates

Pre -65: Initial trend starting at 7.25% at January 1, 2019, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years

Post – 65: Initial trend starting at 5.10% at January 1, 2019, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 11 years

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (setback 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2008–June 30, 2013.

Discount rate. The discount rate used to measure the total OPEB liability was 5.84%. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26-year amortization period of the unfunded actuarial accrued liability. The discount rate determination used an expected rate of return of 6.25% and a municipal bond rate of 3.56%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2017. However, the cost associated with the implicit employer subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will note be paid out of the System's trusts. Therefore, the municipal bond rate was applied to the future expected benefit payments associated with the implicit subsidy.

The long-term expected rate of return on plan assets is the same as disclosed in Note 5 Employee's Pension Plan.

The target allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the following table:

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued KRS financial report.

### Payables to the OPEB plan

The District makes legally required contributions to the OPEB plan on a monthly basis. The monthly payment is due by the 10<sup>th</sup> of the following month. As of June 30, 2018, \$0 was payable to the pension plan for the OPEB Fund.

### NOTE H – PROPERTY TAXES

The Library's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real, personal and motor vehicle property located in Bullitt County. Property taxes are collected by the Bullitt County Sheriff, the Bullitt County Clerk, and the Commonwealth of Kentucky and remitted to the Library. Taxes are due on November 1 and become delinquent by January 1 following the October 1 levy date.

### NOTE I - BONDS PAYABLE

Bonds Payable at June 30, 2018 consists of a general obligation note issue bearing interest at 4,05%. Interest is paid semi-annually. The Bond was used to conduct a major renovation of the main library in Shepherdsville, Kentucky.

Principal is paid annually with the maturities as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>
2019	\$ 30,000	\$ 10,448
2020	31,000	9,173
2021	32,000	7,840
2022	34,000	6,448
2023	35,000	4,952
After 2023	<u>79,000</u>	5,123
Total obligations	\$_241,000	\$_43,984

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2018

### **NOTE J - LONG-TERM OBLIGATIONS**

The following is a summary of changes in long-term obligations for the year ended June 30, 2018:

	Beginning <u>Balance</u>	Increase	Decrease	Ending Balance
Accrued compensated absences Net pension liability Net OPEB liability Bonds payable	\$ 67,825 2,604,060 0 270,000	\$ 16,167 680,992 1,128,264	\$ - - 29,000	\$ 83,992 3,285,052 1,128,264 241,000
Total long-term obligations	\$ <u>2,941,885</u>	\$ <u>1,825,423</u>	\$ <u>29,000</u>	\$ <u>4,738,308</u>

### NOTE K – RISK MANAGEMENT

The Library is exposed to various forms of loses associated with the risk of fire; personal liability; vehicular accidents; errors and omissions; torts; theft of, damage to, and destruction of assets; injuries to employee; and natural disasters. Each of these risk areas is covered through the purchase of commercial insurance. The Library has purchased certain policies that are retrospectively rated, which include worker's compensation insurance. There have been not significant reductions in coverage from the prior year and settlements have not exceeded coverage in that past three years.

### NOTE L – MANAGEMENT'S REVIEW OF SUBSEQUENT EVENTS

The Library has evaluated subsequent events through December 29, 2018, which is the date the financial statements were available to be issued.

### NOTES TO REQUIRED PENSION SUPPLEMENTARY INFORMATION

### June 30, 2018

Changes of benefit terms: The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

2009: A new benefit tier for members who first participate on or after September 1, 2008 was introduced which included the following changes:

- 1. Tiered structure for benefit accrual rates
- 2. New retirement eligibility requirements
- 3. Difference rules for the computation of final average compensation

2014: A cash balance plan was introduced for members whose participation date is on or after January 1, 2014.

Changes of assumptions. The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

### 2015

- The assumed investment rate of return was decreased from 7.75% to 7.50%.
- The assumed rate of inflation was reduced from 3.50% to 3.25%.
- The assumed rate of wage inflation was reduced from 1.00% to 0.75%.
- Payroll growth assumption was reduced from 4.50% to 4.00%.
- The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).
- For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (setback 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.
- The assumed rates of retirement, withdrawal and disability were updated to more accurately reflect experience.

### 2017

- The assumed investment rate of return was decreased from 7.50% to 6.25%.
- The assumed rate of inflation was reduced from 3.25% to 2.30%.
- The assumed payroll growth was reduced from 4.00% to 2.00%.
- The assumed salary increase was reduced from 4.00% to 3.05%.

Method and assumptions used in calculations of actuarially determined contributions. The actuarially determined contribution rates are determined on a biennial basis beginning with the fiscal years ended 2018, determined as of June 30, 2017. The amortization period of the unfunded liability has been reset as of July 1, 2013 to a closed 30-year period. The following actuarial methods and assumptions were used to determine contribution rates reported in that schedule:

Actuarial cost method
Amortization method
Remaining amortization period
Asset valuation method
Inflation
Salary increase
Investment rate of return

Actuarial cost method
Level percentage of payroll, closed
26 years
5-year smoothed market
2.30%
3.05%, average, including inflation
6.25%, net of pension plan investment expense, including inflation

### NOTES TO REQUIRED OPEB SUPPLEMENTARY INFORMATION

### June 30, 2018

Changes of benefit terms: The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

2003: Medical insurance benefits are calculated differently for members who began participating on, or after, July 1, 2003.

Changes of assumptions. The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

### 2017

- The assumed investment rate of return was decreased from 7.50% to 6.25%.
- The assumed rate of inflation was reduced from 3.25% to 2.30%.
- The assumed payroll growth was reduced from 4.00% to 2.00%.
- The assumed salary increase was reduced from 4.00% to 3.05%.
- The assumed healthcare trend rates for pre 65 members reduced from an initial trend starting at 7.50% and gradually decreasing to an ultimate trend rate of 5.00% over a period of 5 years to an initial trend starting at 7.25% and gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years.
- The assumed healthcare trend rates for post 65 members reduced from an initial trend starting at 5.5% and gradually decreasing to an ultimate trend rate of 5.00% over a period of 2 years to an initial trend starting at 5.10% and gradually decreasing to an ultimate trend rate of 4.05% over a period of 11 years.

Method and assumptions used in calculations of actuarially determined contributions. The actuarially determined contribution rates are determined on a biennial basis beginning with the fiscal years ended 2018, determined as of June 30, 2017. The amortization period of the unfunded liability has been reset as of July 1, 2013 to a closed 30-year period. The following actuarial methods and assumptions were used to determine contribution rates reported in that schedule:

> Actuarial cost method Entry age

Amortization method Level percentage of payroll

Remaining amortization period 28 years, closed

Asset valuation method

20% of the difference between the market value of assets and the expected actuarial value of assets is recognized

Inflation

Salary increase 3.05%, average, including inflation

Investment rate of return 6.25%, net of OPEB plan investment

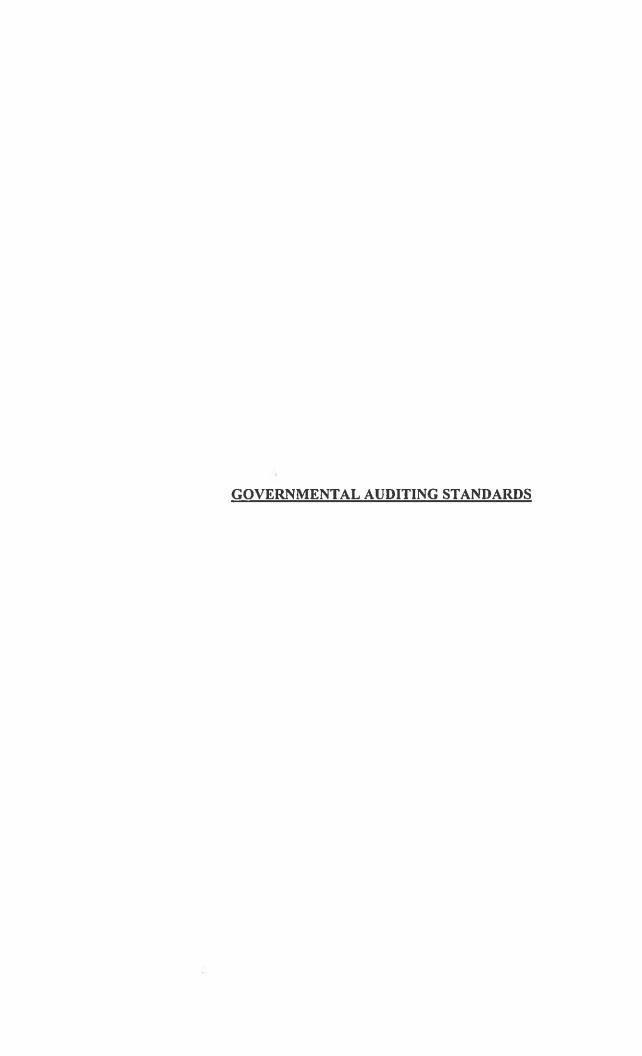

expense, including inflation

Healthcare trend rates Pre – 65: Initial trend starting at 7.25% at January 1. 2019, and gradually decreasing to an ultimate trend rate

of 4.05% over a period of 13 years

Post – 65: Initial trend starting at 5.10% at January 1, 2019, and gradually decreasing to an ultimate trend rate

of 4.05% over a period of 11 years

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

### DePRIE & ADKISSON, PSC

Certified Public Accountants

12730 Townepark Way, Suite 103 Louisville, Kentucky 40243

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Bullitt County Public Library Shepherdsville, Kentucky

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audit contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Bullitt County Public Library as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Bullitt County Public Library, Kentucky's basic financial statements and have issued our report thereon dated August 23, 2018.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Bullitt County Public Library's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Bullitt County Public Library's internal control. Accordingly, we do not express an opinion on the effectiveness of the Bullitt County Public Library's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors Bullitt County Public Library Page 2

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Bullitt County Public Library's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communications is not suitable for any other purpose.
